

Victoria GARCIA GUILLEN

INTPA A2, Programme Manager and Advisor, contract agent, EN-FR-ES, previously active in EEAS social dialogue

I want to defend staff unity and promote solidarity – issues I have been working on for some time now both in the EEAS (career development task force, social dialogue) and now in DG INTPA (Working Group on Working Methods, penholder of the VadeMecum). My initial priority will be to support most vulnerable categories of staff, in particular local agents, CA, TA and AST. I am particularly interested in promoting opportunities for contract agents. I am always available to help colleagues in need, just ask around 😊
