

Roxana PIRJOL

**Curently in DG DEFIS, Financial and Contracts Assistant, EN-RO-FR
EC civil servant from February 2012 & previously temporary agent
from July 2007 in DG BUDG
This is my first activity in trade unions**

I wish to join the Union and discover it with all its add values to the daily life of its memebers and impact to the European citizens, adults and kids.

I am interested in following and supporting the construction of the final establishment of EEBII school in Evere, as the young adults could have, at least, a proper Secondary School to be proud off.

I can participate in the weekly talks and participate actively in punctual themes related to education, promotion and status (to be pensioned at 67 years old is quite enough).
