

# Nikos GIANNIS

**DG INTPA - digital government policy officer, worked previously on knowledge management, info & com, and STI, FR-EN-ES spoken, U4U active member since 2011 & candidate 2018, candidate in European elections 2019**

Being part of the European civil service means to be a convinced pro-European, European citizen in the service of European citizens. Therefore I joined U4U because is a federalist union, which stands for freedom, sharing/caring and one world. I am a social dialogue enthusiast and team spirit fan, advocating efficient and balanced solutions, respecting personal dignity and modern human resources management.

My priorities will be to actively participate in the future of Europe debate-real challenge for all, by making the bridge between EU staff and the on-going conference, as well as striding side by side with colleagues in our every day working life. I want to promote physical exercise, *walking and talking* and *participatory leadership* as tools for a better world, domestically in our administration and in our interaction with the wider society. I commit myself to be available on the above-mentioned and in any other relevant topic may arise.
